

# WEBER CARBURETOR & VISA ENGINE

Some Visa engines are fitted by Citroen factory with a Weber carburetor type 32-34DMTC (venturi diameter 22-26).

Remark : The Weber have a specific manifold.

A Solex manifold will not accept/match the Weber carb.

Carb jetting is :

Idle jet : 45

Accelerator pump jet : 40

Primary stage, 22mm venturi:

Main jet 107

Emulsion tube F 36

Air correction jet 165

Secondary stage, 26mm venturi:

Main jet 110

Emulsion tube F 39

Air correction jet 215

Bowl floats : 7mm

In the picture you can see how the jets, emulsion tubes, air correction jets, idle jet and pump jet are placed when you remove the carb cover.
